

EFOLIO 3&4

Introduction

I have completed every efolio task for week 3 and week 4. The tasks include:

- Bootstrap-powered VueJS app running with Activities 1-6 completed
- frontend supports different devices use responsive design
- Used HTML built-in validation for input checking
- Used JavaScript function to validate user input
- Use PrimeVue to show data

The following screenshots showcase my work.

Week 3

EFOLIO TASK 3.1

User Information Form / Credentials

Username

Roger

Password

123

☒ Australian citizen?

Gender

Male

Reason for joining

Haha

Submit

Clear

User Information
Username: Roger
Password: 123
Australian Resident: No
Gender: male
Reason: Haha

Screenshot 1 - Week 3 Activity 1- 6

EFOLIO TASK 3.2

User Information Form / Credentials

Username

Password

☐ Australian citizen?

Gender

Reason for joining

Submit Clear

Screenshot 2 - Responsive Frontend

```
<template>
  <div class="container mt-5">
    <div class="row">
      <div class="col-md-12">
        <h1 class="text-center">User Information Form / Credentials</h1>
        <form @submit.prevent="submitForm">
          <div class="row mb-3">
            <div class="col-md-6">
              <label form="username" class="form-label">Username</label>
              <input type="text" id="username" class="form-control" v-model="formData.username">
            </div>
            <div class="col-md-6">
              <label form="password" class="form-label">Password</label>
              <input type="text" id="password" class="form-control" v-model="formData.password">
